Methodology Change – Business Forecast publication t-5 for DAX Indices as of September 2022

Dear Customer,

STOXX Ltd., the operator of Qontigo's index business and a global provider of innovative and tradable index concepts, provides further information on the changes to the Review Process and Review schedule for DAX Equity, DAX Strategy and DAXglobal Indices effective with the regular Index Review in September 2022 and pursuant to the results of the Market Consultation published on June 7th, 2022.

Overview of the Changes

With the regular index review in September 2022, the timeline for the review process will be changed. **The fixing of weight factors and cap limits is published at t-5 at 22:00 CET** and are determined based **on index constituents close prices of t-6**, with t being the third Friday of the review month. Consequently, with the regular index review in September 2022 **the business forecast will be published on Friday, September 9th, 2022 at 22:00 CET with the index constituents close prices of Thursday, September 8th, 2022.**

On t-5, the Underlying Data Announcement (UDA) date, the business forecast will contain the number of shares, cap factors, constituent weightings and free-float factors that are used at close of 3rd Friday of the review month, i.e. the Chaining Date (Review Implementation Date).

On t-2 at 22:00 CET, the business forecast will be republished containing the necessary adjustments following corporate actions with ex-dates effective during the period between the Underlying Data Announcement date and the Chaining Date (Review Implementation Date).

The Chaining Date (Review Implementation Date) remains to be at close of the 3rd Friday of the review months.

The publication of the Equity Index Rankings on the Review Publication Date remains to be the 3rd trading day of the review month, with cut-off date for creation of ranking list being the last trading day of the previous month.
